FOOD
GRADE

6 Layer

Puff Layer Tank

- Food Grade Layer
- Advanced Anti Microbial Layer
- UV Protected Sun-Shield Layer
- Thermal Insulated Foam Layer
- UV Protected Outer layer (Color)
- Thermal Insulated Foam Layer

Range and Specifications			
Capacity (Liters)	Diameter (mm)	Height (mm)	Manhole Dia (mm)
500	960	850	485
1000	1192	1080	485
2000	1600	1410	485
5000	2020	1905	485

Engineered for excellence, built for a lifetime.

Double Foam, Double Heavy, Double Cool

NOTE:

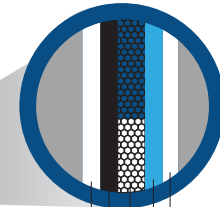

Available in double & single Foam layers

6-Layer Advantage:

- Outer Layer: Shields the tank from weather with durable UV resistance
- Double UV Protected Layer: Prevents sunlight from degrading the tank material.
- Insulation Layer: Keeps water cool in summer and prevents freezing in winter.
- Middle Layer: Enhances strength and impact resistance.
- Antibacterial Layer: Prevents bacterial and algae growth for clean water
- Inner Layer: Food-grade material with a smooth, algae-resistant finish.

5 Layer

Puff Layer Tank

- Food Grade layer
- Advanced Anti Microbial Layer
- UV Protected Sun Shield Layer
- Thermal Insulated Foam Layer
- UV Protected Outer layer (Color)

Range and Specifications

Capacity (Liters)	Diameter (mm)	Height (mm)	Manhole Dia (mm)
500	960	850	485
1000	1192	1080	485
2000	1600	1410	485
5000	2020	1905	485

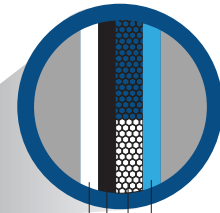

Engineered for excellence, built for a lifetime.

5-Layer Advantage:

- Outer Layer: Protects against external damage and UV exposure.
- UV Protection Layer: Ensures tank material withstands sunlight for years.
- Middle Layer: Adds toughness and structural stability.
- Antibacterial Layer: Prevents microbial growth, keeping water fresh.
- Inner Layer: Smooth, food-safe surface keeps water clean and hygienic.

4 Layer Water Tank

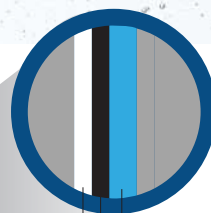

- ← Food Grade Inner Layer
- ← Black Middle Layer
- ← Insulated Foam Layer
- ← UV Protected Outer Layer
